Turnaround Times

Average days each stage took this period. "Change" compares with the previous period — a negative number means the delay is shrinking.

Stage	Avg Days	Target	Jobs	Change vs Previous
Inspection to documents sent	4	3 days	23	-5.4 days (improving)
Captured to approved	2.3	2 days	48	-7.8 days (improving)

Action Points This Week

Created automatically from this week's numbers. Red = act now, amber = needs attention.

- 1. Approve the backlog: 110 inspections are still waiting for office approval. Largest backlogs: Kabelo Percy (33 waiting), Kutlwano Kuntwane (28 waiting), Lwandile Dlamini (22 waiting). Every day they wait, the 2-day standard slips further.
- 2. Chase late capturing: Jofred Steyn captured only 68% of inspections within 2 days; Hellen Modiba captured only 67% of inspections within 2 days; Kutlwano Kuntwane captured only 57% of inspections within 2 days. Remind them to capture on the day of the inspection.
- 3. Follow up on low pass rates: Cinga Ngongo at 33.3% (-1.2pt vs last week); Lwandile Maqina at 25% (-51.9pt vs last week); Kabelo Percy at 21.1% (-16.8pt vs last week). Look at which clients and products are failing and whether intervention is needed.
- 4. Get outcomes recorded: 108 of this week's inspections have no compliant / non-compliant outcome recorded, so nobody knows whether those clients are safe. Most outcomes missing: Kutlwano Kuntwane (28), Kabelo Percy (23), Lwandile Dlamini (22). An inspection without an outcome cannot count as compliant.
- 5. Chase 14 overdue samples: more than 7 days with no lab result. The list is in Section 2 — find out if each one is stuck with the inspector, the courier or the laboratory.
- 6. Set quarterly targets: 15 of 16 inspectors have no Q3 2026 target captured, so their target progress cannot be measured. Capture the targets so next week's report can track them.
- 7. Inspections dropped 19% (382 last week to 310 this week). Check leave, planning and routes for the coming week so the volume recovers.

Approved + Waiting Approval = this week's inspections. "Quarter So Far" = all inspections this quarter (Q3 2026) up to the end of this reporting week.

Inspections this week — normal inspections vs occurrence reports

Of those inspections — approved vs still waiting for approval

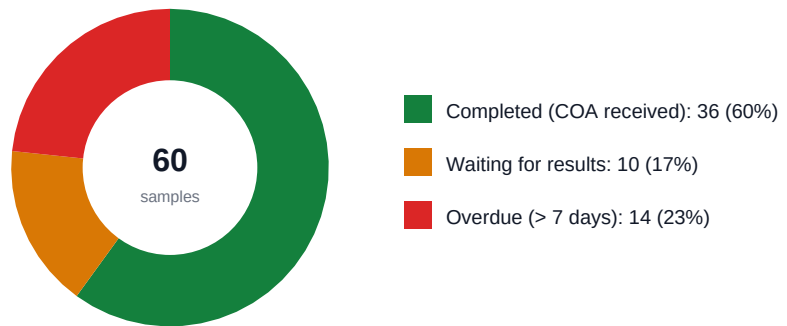

The travel effort behind these inspections:

Inspector	Inspections	KM Travelled	Hours on the Road

2. Sample Tracking

Status: 36 completed (COA received) · 10 waiting · 14 overdue (> 7 days)

"Result Back" — the laboratory certificate (COA) has been received and uploaded for the sample.

"Still Waiting" — the sample is on its way to the laboratory or is still being tested.

"No Sample Taken" — the inspection was completed without collecting a sample.

Rank	Inspector	Inspections	Samples Taken	No Sample Taken	Result Back	Still Waiting	Waiting > 7 Days

Samples awaiting laboratory results

A sample normally waits a few days while it travels to the laboratory and is tested. A row in red has a sample waiting longer than 7 days.

Inspector	Samples Waiting	Longest Waiting	Clients
Lwandile Dlamini	4	10 days	Shoprite-Sundumbili, Bluff Meat Supply Empangeni, Boxer -Atrium Mall, Shoprite Biyela Center
Hellen Modiba	2	10 days	Roots Butchery- Mafikeng, Boxer Superstore- Megacity
Seun Sebolai	3	9 days	superspar kalahari mall, Fruit and Vegiland Butchery, Shoprite
Thato Sekhotho	3	9 days	Pick n Pay-Langenhoven Park, Taylor Made Foods - Bloemfontein
Gladys Manganye	5	8 days	Meat World Butchery - Witbank, Meat World Matumi Mall, Meatworld Butchery Nelspruit
Jofred Steyn	4	8 days	Superspar Spandau, Merino Slagtery
Mokgadi Selone	1	7 days	Nesta Foods Raw Plant
Kutlwano Kuntwane	1	7 days	Pick n Pay Worcester
Lwandile Maqina	1	6 days	Ellis Park Butchery

3. Approval versus Capturing

Green = approved, or captured within 2 days of the inspection. Red = still waiting for office approval, or captured later than 2 days.

Rank	Inspector	Inspections	Captured Within 2 Days	Approved	Waiting Approval
1	Cinga Ngongo	30	30	30	0

4. Weekly Compliance

% Compliant counts EVERY inspection the inspector did this week — all commodities. An inspection with no recorded outcome cannot count as compliant, so missing outcomes pull the percentage down. Exact to one decimal.

Rank	Inspector	Inspections	Compliant	Non-Compliant	No Outcome Recorded	% Compliant
1	Ben Visagie	13	13	0	0	100%
2	Seun Sebolai	9	9	0	0	100%

7	Hellen Modiba	15	11	3	1	73.3%
8	Jofred Steyn	19	12	4	3	63.2%
9	Nelisa Ntoyaphi	24	13	6	5	54.2%
10	Mokgadi Selone	7	3	0	4	42.9%
11	Cinga Ngongo	30	10	20	0	33.3%
12	Gladys Manganye	21	6	0	15	28.6%
13	Lwandile Maqina	12	3	7	2	25%
14	Kabelo Percy	38	8	7	23	21.1%
15	Kutlwano Kuntwane	28	0	0	28	0%
16	Lwandile Dlamini	22	0	0	22	0%
Whole team — grand total		310	147	55	108	47.4%

Compliance per commodity:

Each cell shows the % compliant for that commodity. "0" = no inspections of that commodity.

"no outcomes" = the inspections were done, but no compliant / non-compliant outcome has been captured for them yet.

Green = 75% or better. Orange = 50% to 74.9%. Red = below 50%, or no outcomes captured yet.
